# Branding.

Case study: FITNESS REPUBLIC.

# Project Overview

## Brand Identity

Fitness Republic is an online health consultancy that integrates training, nutrition and biohacking.
Born in the Dominican Republic, the brand represents strength, pride and discipline.

## Core Concept

The branding is built around a **unique symbol**:

A waving flag shaped by the Dominican Republic's territory,
merging the "F" of Fitness Republic with the brand's cultural heritage.
This creates an identity that carries origin, purpose and a visually powerful message.

## Brand Philosophy

Fitness Republic is created for individuals who don't fit in, those who break paradigms,
go against the norm, and choose a path of discipline and self-mastery.

The brand represents a community of people who redefine what it
means to live with strength, purpose, and independence.
